

SMM Green Shipping Guide 2017

global maritime
environmental congress

gmec

In its 8th year the SMM Green Shipping Guide will be published in an innovative digital format.

Smart shipping, smart solutions - a digital issue sent to over 70,000+ contacts

Shipping might have been excluded from COP21, but continues to be under pressure to cut harmful emissions now the IMO has agreed a 0.5% global sulphur cap on emissions by ships from 2020.

Smart shipping is firmly on the radar and all of shipping's stakeholders have something to gain.

The SMM Green Shipping Guide 2017 will report on latest initiatives across the entire spectrum of the shipping industry as it squares up to meet the challenges of today and tomorrow.
