Door / gate size

(5 doors, 1 gate)
Clear height: 2,20m (door), 4,00m (gate)
Clear width: 1,70m (door), 4,20m (gate)

Floor of lightweight hall

The floor is made of wooden panels with a load-bearing capacity of 300kg/m².

Heavy exhibits

Exhibits weighing more than 300kg/m² may only be brought in by arrangement and when the hangar is erected.

Heavy exhibits must be delivered to the Hamburg Messe + Congress GmbH from 18 January 2021 to 20 January 2021. Please liaise with the department in charge of technical matters (Technical Department – Fairs & Exhibitions; contact details below).

Height limits

The following limits apply in all cases, where technically possible:
Stand construction: +6.00m above finished floor level
Advertising structures/banners: +7.00m above finished floor level
Suspended lighting: +7.00m above finished floor level

Suspension systems

Items may only be suspended by arrangement with the department in charge of technical matters (Technical Department – Fairs & Exhibitions; contact details below).

Orders for internet, water and power supply

Orders for power, water, Internet installations must have been placed with the Hamburg Messe + Congress GmbH exhibitor services team (Ausstellerservice) **by 21 Dezember 2020**. Please place your orders through our Online Service Center <https://www.hamburg-messe.de/aussteller/service/osc/>
Installations of the above supply infrastructures will no longer be possible after 21 Dezember 2020.
There is no compressed air supply facility.

Please also note the following:

Items may not be stuck on the walls.
No forklift trucks are allowed in the hangar.

Please submit all booths to the department in charge of technical matters (Technical Department – Fairs & Exhibitions) for checking.

The Technical Guidelines of Hamburg Messe + Congress GmbH apply.

Please ask if you need help or advice!
