

Transportation

Airport Shuttle

The SMM airport shuttle offers delegates a direct connection from the airport to the trade fair halls. The shuttle commutes throughout the entire SMM week and contributes to greener transportation. Another plus: it is cheaper than taking a taxi. Connect your company name to this special service by prominently placing your logo on the buses and presenting your advertising material to the passengers.

Your benefits include

- logo presentation on SMM airport shuttles
- advertising material inside the buses
- sponsor announcement via SMM social media channels
- logo presentation in the trade fair media: website, show catalogue, visitor guide, mobile application
- flag in front of central entrance (delivery by sponsor)
